Unseen Passage

1. Read the following passage carefully and answer the questions below it :
'Prevention is better than cure', and it is recognised that the only way to get rid of malaria completely is to get rid of mosquitoes which cause it. (Malaria is always associated with damp and marshy land.) This is not because the land is damp, but because the stagnant water is the breeding place of the mosquito, which begins its life as a larva living in the water. Malaria does not frequently occur in the water. (Malaria does not frequently occur in dry desert countries,) because mosquitoes cannot breed there. The only way to destroy mosquitoes is to prevent their breeding in stagnant water. This can be done by draining all ponds and pools and by keeping them covered in the breeding season with a thin layer of kerosene oil, which by depriving the larvae of air, kills them

Questions :

- In what places does malaria occur most ?
- How does a mosquito begin its life ?
- In what places malaria does not occur ?

(There seems to be a general opinion in this country that Sardar Patel was slightly of harsh and rough temperament.) Men call him the 'Iron Man of India'. He was, no doubt, an iron man in the sense that one could rely on him for strict and efficient administration. (But as a man, to those who had the good fortune of coming into close contact with him, he was kind and considerate.) At times, he even became emotional where his personal friends and followers were concerned. However, it goes without saying that Sardar had the great skill for organizing affairs. He knew the way of picking people and putting them in their proper places. Once he judged a man and found him correct, he trusted him fully and got him to do anything he wanted.

Questions :
